► Fleet Planning Services

“The logistics involved in planning, manufacturing and distributing the largest roll-out of a new 3 bin system in the southern hemisphere were staggering but SULO delivered it on time, to specification and within budget...”

- SULO can provide highly specialised advice on planning and implementing a new waste management system or upgrading your existing one regardless of its size.
- We can also advise on bin fleet scoping, financing strategies, and bin and waste audits.
- **Benefit – Optimises your bin fleet composition and lifespan.**

► Assembly and Distribution Services (A&D)

“In partnership with SULO we were able to track every aspect of our roll-out with their web-based A&D management system. The accuracy, timeliness and security of the data and reports were really impressive...”

- Through our investment in scanning, innovative proprietary software and information technology SULO can effectively manage, monitor and report on every aspect of your bin roll-out, replacement, retro-fit or pull back.
- The SULO web based system is not only accurate and secure, but can report in real time.
- **Benefit – Simplifies your operations and administration, and gives you total control over the process with timely information and reporting.**

► Manufacture and Supply

“SULO has delivered over 10 million bins to residents in Australia and New Zealand”

- Our state-of-the-art Australian manufacturing facility uses world class technology and processes to produce the largest range of quality certified bins from 60L through to 1500L
- SULO also supplies an innovative range of new products including the Steelybin, Kitchen Tidy, Ecoenclosure, and Clinical Container.
- We have distribution centres across Australia to service all your needs.
- Stocks are available for your immediate needs.
- **Benefit – High quality Australian made bins and accessories for every application.**

► Fleet Maintenance Services (FMS)

“The SULO FMS has proven to be highly efficient and consistently meets the high expectations of our residents...”

- SULO is a widely experienced and trusted partner in fleet maintenance and can customize a service to meet your specific needs regardless of size or complexity.
- Our services are managed through a secure online system to ensure every job is tracked and completed within the agreed timing.
- **Benefit – Reduces the risk and costs of maintaining your bin fleet, as well as improving your cash flow and service levels.**

► Recycling Service

“We were certainly impressed by the fact that SULO uses up to 35% recycled material in its 2 wheel bins...”

- SULO ‘closes the loop’ by buying back old bins and recycling the material for use in the manufacture of new high quality bins.
- Mobile Garbage Bins manufactured by SULO contain up to 35% recycled content
- **Benefit – Reduces the environmental impact by diverting material from landfill.**

With SULO ‘Whole of Life’ Solutions we work in partnership with you to develop customised, cost effective solutions for any or all aspects of your bin fleet management regardless of size or complexity.

The results achieved by our customers speak for themselves:

- Optimised bin fleet composition and lifespan
- Simplified operations and administration
- Reduced risks and costs
- Improved service levels, and
- Enhanced environmental outcomes contributing to ‘best practice’
